

## Colonial America Post-Assessment Answer Key

1. C
2. E
3. D
4. A
5. G
6. B
7. F
8. In order to receive 3 points the student must include characteristics of the environment and how the natural resources of the region impacted the culture. The response should include specific examples.

In order to receive 2 points the student may have included characteristics of the environment and how the natural resources of the region impacted the culture, but did not include specific examples.

9. B
10. B
11. In order to receive 2 points the student must explain that Plymouth and Jamestown were successful because they had the help of the Native Americans. In addition, Jamestown had John Smith as a leader. Roanoke did not have the help of the Native Americans. They eventually ran out of supplies.
12. In order to receive 2 points the student must explain that the slaves worked the plantations. As a result, the colonies were able to grow more crops, make more money, and trade with England.
13. In order to receive 3 points the student must correctly identify each of the three Colonial regions. In addition, they must accurately identify the climate and geography of each region. Finally, they must explain how the geography and climate impacted the daily life of the colonists.

In order to receive 2 points the student must correctly identify each of the three Colonial regions. In addition, they must accurately identify the climate and geography of each region.

14.False

15.True

16.True

17.True

18.True

19.In order to receive 2 points the student must include at least 1 specific example. Accept reasonable responses. Some **possible** examples include:

- Jamestown and Plymouth may not have been successful without the help of the Native Americans.
- Jamestown would not have been able to harvest and trade tobacco.
- The colonists might have run out of food since the Native Americans taught them how to farm, hunt, and fish.
- The colonists may not have been able to trade in order to get the supplies or materials that they needed.
